WILDFIRES IN BC – NOW IS THE TIME TO PREPARE!

We've invited those in the know to share their knowledge and experience. This is a chance for you to ask questions and start to plan.

- The BC Climate Action Committee will outline the plan that they have created as a tool for you - what you need to know, where to go for information, what to prepare, your responsibility to guests (vacation rental/B and B/ winery) and employees, accessing your property during harvest, etc.
- Production Insurance - coverage, how it works and when/how to start a claim for your vines and your grapes
- Liability Insurance - food for thought -- what needs to be covered on your acreage?
- **VISITING SPEAKER: Mitigating Damage in your Vineyard – Glenn McGourty**, an engaging speaker from University of California, will share his learning experiences from wildfires including tips to identify and mitigate damage to your vines and grapes after a fire

Always a great opportunity to connect with growers... bring a friend!
